

EMERGENCY RESPONSE AND DISASTER RECOVERY SUPPORT SERVICES

PROVIDING SAFE, EFFECTIVE SOLUTIONS FOR DISASTER RECOVERY

Moran Environmental Recovery (MER) is now one of the largest privately held marine emergency response contractors in the United States. With the addition of subsidiary Global Diving & Salvage, we have resident operations and equipment that can serve every Coast Guard district in the country, offering unparalleled service throughout the U.S. waterways and abroad.

MER is a nationally recognized Oil Spill Removal Organization (OSRO) and an experienced Disaster Response Contractor. As a supplier of environmental, emergency management, and commercial diving services, MER's capabilities within its internal network delivers multiple solutions for complicated problems as a result of a storm.

- Access to all of Moran Towing Corporation, MER, and Global resources through a single point of contact.
- Team is designed to operationally mirror the Unified Command structure used by government agencies, thus providing seamless integration in partner responses.
- Established system for managing resources and qualified subcontractor network.
- A dedicated management team and group of response specialists that have rapid response expertise and capabilities.

The collective presence of Global, MER, and Moran Towing gives our teams the capacity and capability to perform large offshore projects. Together, our technological expertise, strategic locations, extensive assets and range of experience provides you with an unparalleled partner in hurricane response and clean-up.

MER RESPONSE SERVICES AT-A-GLANCE:

- Oil Spill Response—MER's expert staff, specialized equipment and expertise allows us to stay at the ready to support our plan holders in oil spill recovery and remediation associated with the impact of severe weather.
- Marine Salvage—Utilizing internal resources we are able to quickly assemble teams, vessels and equipment to provide wreck and debris removal, salvage, pollutant recovery, subsea inspection, surveys, and shallow and deep-water energy platform repairs.
- Marine Transportation—Through Moran Towing's subsidiary SeaStreak, MER can access shallow water fast ferries that can transport personnel to work areas or out of harm's way.
- Debris Management—Clearing areas to gain access and establishing recycling yards to handle storm debris is an important task to get areas back up and running.
- Utility Support—We provide initial teams to identify, remediate and remove electrical transformers so the utility clients can get their infrastructure back up and running.

UNPARALLELED PERFORMANCE

MER brings unmatched capabilities, technological expertise, strategic locations, assets and range of experience to every project. Our united presence gives us the capability to assemble the right team for each unique situation, respond quickly, and efficiently resolve a wide variety of unique and complex problems in, around and under the water.

EMERGENCY RESPONSE

MER is a nationally recognized Oil Spill Removal Organization (OSRO), experienced Disaster Response Contractor, and maintains ongoing relationships with state and federal agencies, regional response partnerships, and clients.

Together we provide:

- A highly proficient team, experienced in the Incident Command System (ICS).
- Salvage Plan development and execution for single to multiple marine casualties.
- Nationwide Nonfloating Oil classified OSRO.
- Experienced casualty response teams include project managers, salvage masters, environmental technicians, ROV operators, and skilled commercial divers cross-trained in casualty, environmental, marine construction, and oil field projects.
- Extensive experience with BOA Implementation and contract requirements with the ability to service nearly 30 U.S. sectors.
- Through our parent company, Moran Towing Corp. we offer a fleet of petroleum and dry bulk hopper barges, both inland and ocean-going. For storage, transportation, and debris removal during the planning, response, and remediation process.
